

Position and direction in football

Describing positions and
planning routes (Level 2)

Maths resource

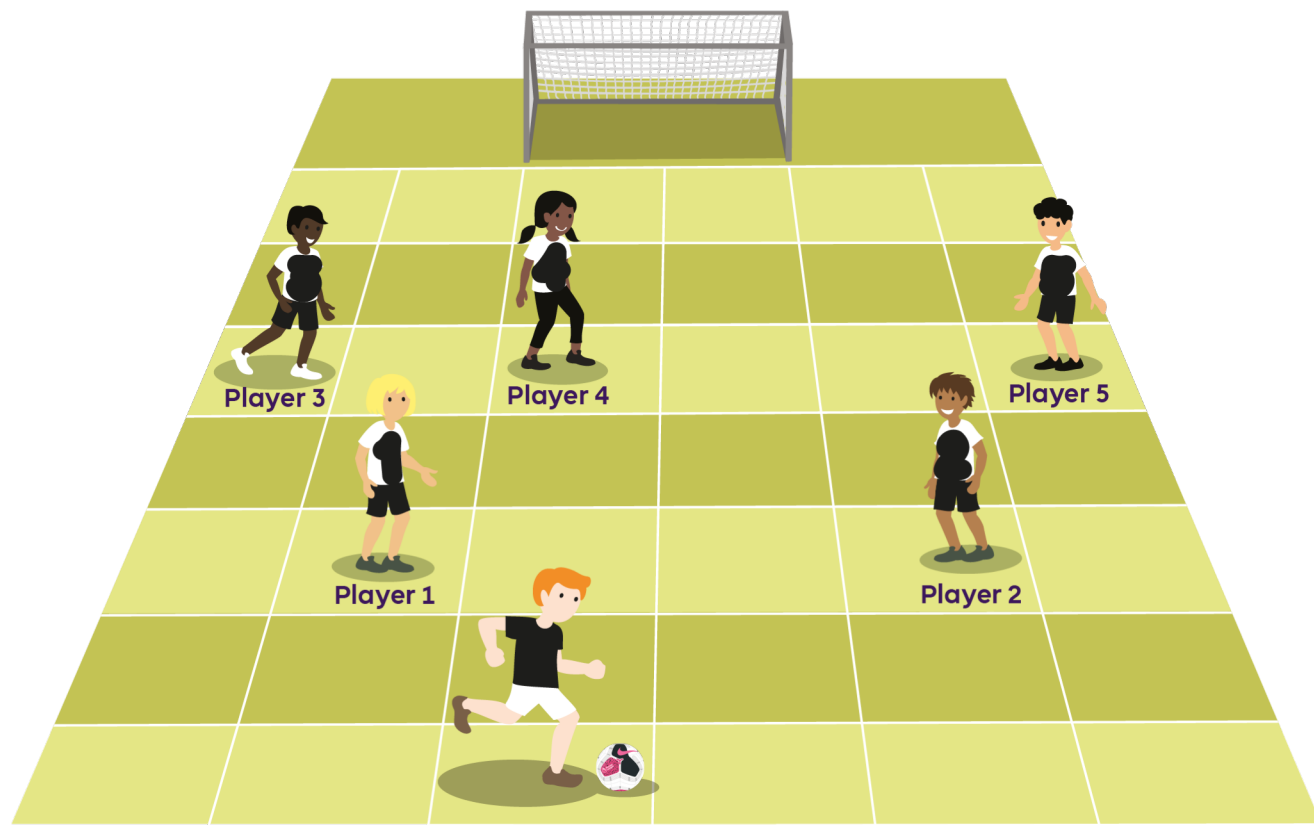

KS1: Ages 5-7

**The player with the ball wants to try for goal. But the other team's players are in the way!
How will he get around them?**

Can you help the player to find the goal?

Here are some instructions for the player to find the goal. Draw arrows on the grid to show the route the player will take to find the goal:

- Right three spaces
- Up three spaces
- Left one space
- Up three spaces
- Left two spaces

There is more than one way to get to the goal!

Can you find a different way?
Draw arrows to help you write the instructions.
