

## Day 4 Phonics Phase 5

### Spot the Split Digraph

Circle all the words that contain a split digraph.  
How many can you find?

Jake went to the park with his little sister, Kate. They wanted to fly their new blue kite. Nine of their mates were there, playing on their skateboards.

They sat together and ate their picnic lunch. Jake and Kate shared a big cake that their dad had baked.

After lunch, they saw a huge snake near the lake! They raced home to tell their mum.

'I'll phone the zoo,' she said, 'so they can catch it, before it slides away and hides.'

I found \_\_\_\_\_ words with split digraphs.
